

Quality Management Intern (m/f/d)

Our madebymade GmbH is growing and we are looking for **clever minds** to work with us on **sustainable solutions for the future**.

Who we are:

At madebymade we supply high quality insect proteins and lipids for the production of animal feed. By using sustainable insect protein, we protect biodiversity and reduce greenhouse gas emissions. In short: regional insect protein, instead of fishmeal and soy imports.

Our modular plant is up and running. The next step is to scale it up to an industrial plant. For this growth we are looking for committed people who want to break new ground and work with us on an extraordinary business idea.

Who we are looking for:

We are looking forward to motivated interns who support us in optimizing our **Quality Management System**.

You know **GMPs** and **HACCP** and want to put theory into practice? Then you are exactly right with us. **Insect reproduction, feed safety** and **quality management** are areas in which you can develop your own ideas. Your studies are ideally in the food and feed sector; such as food process engineering, food safety, quality management or similar. Our quality management team will support you in your tasks and you will have several contact persons on site for questions and suggestions.

An independent and proactive way of working is important to us. What does that mean? You should be able to independently develop concepts and contribute ideas instead of just waiting for instructions. We are looking for someone who can tackle and participate, freely according to: **"the best idea wins"**. A basic level of German is required (B1), depending on your work area higher than B1.

Do we suit you?

- Are you a good mix of **creative mind** and **structured head**?
We know how you can combine both talents in one job.
- Do you want to get involved in the young and innovative field of **insect biotechnology**?
We offer you the chance to become an expert in a forward-looking business field.
- Are you **reliable, patient** and able to familiarize yourself with new tasks?
We entrust you with projects right from the start, which you manage independently.
- You like to work **flexibly** and enjoy both city and country air?
We offer you a varied working environment, close to the city but still in nature.

We are looking forward to your application to bewerbung@madebymade.eu.
